I Monitor function

Real image reverting and displaying the imperceptibility is one of the key specifications for the professional equipment.

I 800NP adopting the digital TFT-LCD, takes the character of high image quality and wide viewing angle, living colour reverting and exquisite image quality , which can meet the demand to image details for the professional operator

I

800NP colour LCD monitor has the audio input of biaural speaker , and the earphone output jack on the right of the control panel, which can make it convenient to monitor the audio signal from the camera and other audio source

### Specification

Displaying size	8" (TFT-LCD)
Displaying ratio	4 : 3
Resolution	640×480
Dot pitch	0.136×0.416 (mm)
Contrast ratio	250 : 1
Response time	15ms
Viewing angel	left65° /right65° /up55° /down65°
Luminance	400cd/m2
Voltage range	DC12V~24V
System	PAL/ NTSC ( Auto detect )
Audio input	2line input ( dual speakers )
Video input	4lines composite input
Input voltage	DC12V
Working temperature	-10°C~50°C
Power	≤8W/0.7A
dimension	L483×H220×W65
Weight	2.7KG
Video output	4lines composite output
